

Asia and the Pacific – Regional Overview of Food Security and Nutrition 2018

Accelerating progress towards the SDGs

This report reveals that some 486 million people remain undernourished in the region, warning that the decrease in the number of hungry and malnourished people – including children – has come to a virtual standstill. It also calls for greater resolve from governments to end hunger.

ANIMAL PRODUCTION AND HEALTH

Global Rinderpest Action Plan

Rinderpest is eradicated but not forgotten

This action plan addresses the risk of re-emergence of the disease. Among the actions that have already been put in place are the “Never turn back” OIE communication campaign targeting laboratory staff, veterinary practitioners and veterinary students.

Food security and nutrition in the age of climate change

Proceedings of the International Symposium organized by the Government of Québec in collaboration with FAO

Some of the challenges addressed during the Symposium were the lack of human and financial resources in livestock farming, how agroforestry strengthens resilience to climate change, and the role of women in West Africa's food systems.

FISHERIES AND AQUACULTURE

Impacts of climate change on fisheries and aquaculture

Synthesis of current knowledge, adaptation and mitigation options

This report indicates that climate change will significantly affect the availability and trade of fish products, especially for those countries most dependent on the sector, and calls for effective adaptation and mitigation actions encompassing food production.

652 pages | 210 x 297 mm | ISBN 9789251306079
