

AGRICULTURE

Field guide to improve water use efficiency in small-scale agriculture

The case of Burkina Faso, Morocco and Uganda

This guide, based on case studies, provides practical measures and applications to improve water use efficiency, including when and how often to irrigate based on water use records.

80 pages | 210 x 297 mm | ISBN 9789251317600

Commission on Genetic Resources for Food and Agriculture

Voluntary Guidelines for the conservation and sustainable use of farmers' varieties/landraces

These guidelines address the loss of diversity in, and promote the value of, farmers' varieties/landraces, which are being replaced by modern cultivars. Farmers' varieties/landraces tend to be well-adapted and suited to local production systems and confer increased resilience for crop production.

FORESTRY

Forestry working papers

Assessing the governance of tenure for improving forests and livelihoods

A tool to support the implementation of the Voluntary Guidelines on the Responsible Governance of Tenure

This publication describes the strengths and limitations of an assessment tool developed to help countries evaluate their forest tenure systems, particularly those that facilitate participation of non-state actors in forestry, including community and smallholder forestry.

68 pages | 210 x 297 mm | ISBN 9789251315538

Download PDF

Forest product conversion factors

By providing ratios of raw material input to output for wood-based forest products in 37 countries, this book helps analysts, policymakers, forest practitioners and forest-based manufacturers to understand the drivers of efficiency, feasibility and economics in relevant sectors.

68 pages | 210 x 297 mm | ISBN 9789251322475

Peatlands mapping and monitoring

Although peatlands cover only 3 percent of the world's surface, they play a pivotal role in global climate regulation. To avoid their degradation and enable their restoration, peatlands should be mapped and monitored. This book presents the characteristics of these special ecosystems and provides recommendations on how to protect them.
