

HIGHLIGHTS

The State of World Fisheries and Aquaculture 2020

Sustainability in action

Launched on 8 June 2020, this year's focus on sustainability reflects a number of milestones, including the twentyfifth anniversary of the Code of Conduct for Responsible Fisheries, and the maturation of several relevant SDG indicators. The report is also available in a device-responsive [html version](#).

ANIMAL PRODUCTION AND HEALTH

TECA – Technologies and practices for small agricultural producers

Good beekeeping practices

Practical manual on how to identify and control the main diseases of the honeybee (Apis mellifera)

This manual is a practical tool to help beekeepers, veterinarians and beekeeping advisory services to properly identify main honeybee diseases and take the most appropriate actions in the apiary to control and/or prevent disease outbreaks.

80 pages | 210 x 297 mm | ISBN 9789251326640

[Read more](#)

Towards sustainable crop pollination services

Measures at field, farm and landscape scales

This publication shares practical measures at field, crop and landscape level supporting sustainable crop pollination services, including soil management for ground-nesting bees, and planning shade-tree cultivation to favour pollinators.

194 pages | 210 x 297 mm | ISBN 9789251325780

Near East and North Africa – Regional Overview of Food Security and Nutrition 2019

Rethinking food systems for healthy diets and improved nutrition

According to this year's report, despite encouraging trends, the food security and nutrition status of the population remains dire for many countries in the region. Some 55 million people are still affected by hunger and reversing this will require governments to rethink agricultural, health and trade policy.

94 pages | 210 x 297 mm | ISBN 9789251324356

FAO fisheries and aquaculture proceedings

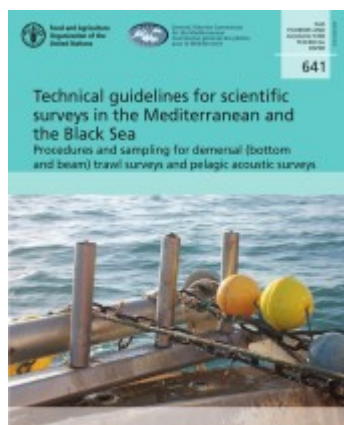

Proceedings of the International Symposium on Fisheries Sustainability: Strengthening the science-policy nexus

FAO Headquarters, 18–21 November 2019, Rome, Italy

A new vision of sustainable and socially just fisheries, more resilient to the challenges of the 21st century, was discussed. Also, a set of recommendations were developed to improve the sustainability of capture fisheries, thereby making SDG targets more achievable.

111 pages | 210 x 297 mm | ISBN 9789251326541

PLANT PRODUCTION AND HEALTH

The Global Action for Fall Armyworm Control: Action framework 2020–2022

Working together to tame the global threat

A plant pest originating in the tropical and subtropical regions of the Americas, the fall armyworm has rapidly spread around Africa, Asia and Oceania. As it threatens food security and millions of livelihoods, FAO's new initiative plans to mobilize USD 500 million to strengthen monitoring and pest control.

50 pages | 210 x 297 mm | ISBN 9789251326961
