

## HIGHLIGHTS

### **The State of Food Security and Nutrition in the World 2020**

*Transforming food systems for affordable healthy diets*

The number of people affected by hunger globally has been rising since 2014. This report spotlights the links between food security and nutrition, introduces new analysis of the affordability of healthy diets, presents health and climate-change costs associated with food consumption and concludes by discussing policies and strategies to transform food systems.

The report is also available in a device-responsive [HTML version](#)

320 pages | 210 x 297 mm | ISBN 9789251329016

### **Global Forest Resources Assessment (FRA) 2020**

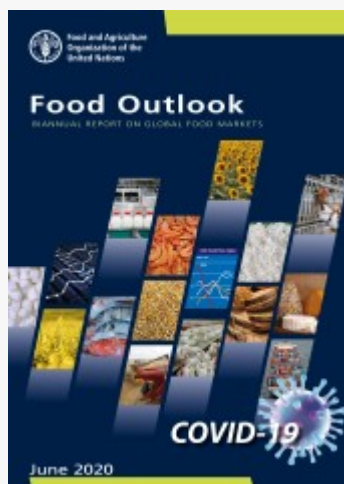

*Main report*

Since the first assessment in 1948, the report has evolved into a comprehensive evaluation of forest resources and their condition, management and uses, covering all the thematic elements of sustainable forest management. One of the key findings in this edition is that while deforestation continues, it has been reduced in the last five years.

## AGRICULTURE

### Food Outlook

*Biannual report on global food markets, June 2020*

Food markets will face many more months of uncertainty related to the COVID-19 pandemic. However, the agri-food sector is likely to display more resilience to the crisis than other sectors. Featured in this report is a comparison of the Great Lockdown to the Great Recession, as well as revisions to the FAO food price indices.

166 pages | 210 x 297 mm | ISBN 9789251328484
