AGRICULTURE

Increasing the benefits and sustainability of irrigation through integration of fisheries

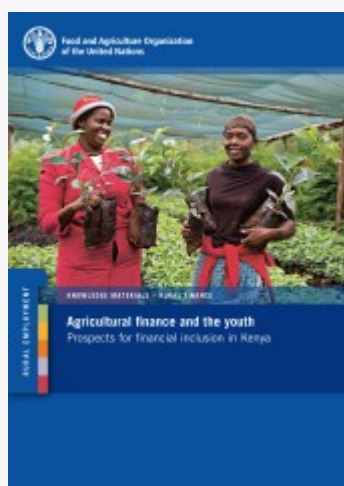

A guide for water planners, managers and engineers

This guide focuses on how to sustainably optimize and broaden the range of benefits from irrigation development through engaging with fisheries stakeholders. It also considers possible trade-offs between irrigation and fisheries, such as reservoir management and water distribution.

92 pages | 210 x 297 mm | ISBN 9789251336014

ECONOMIC AND SOCIAL DEVELOPMENT

Agricultural finance and the youth

Prospects for financial inclusion in Kenya

High levels of unemployment and the informality of the job market weaken the ability of Kenyan youth to access financial services. This study highlights the digital financial inclusion of rural youth and recommends developing multi-service digital platforms for agricultural entrepreneurship.

68 pages | 210 x 297 mm | ISBN 9789251336748

Role of income inequality in shaping outcomes on individual food insecurity

Background paper for The State of Food Security and Nutrition in the World 2019

FAO AGRICULTURAL DEVELOPMENT ECONOMICS WORKING PAPER 19-06

November 2019

FAO agricultural development economics working papers

Role of income inequality in shaping outcomes on individual food insecurity

Background paper for *The State of Food Security and Nutrition in the World 2019*

Based on the 2014 Gallup World Poll dataset and a three-level linear probability model, this paper assesses the macro-economic effects of economic growth and income inequality on individual food insecurity.

44 pages | 210 x 297 mm | ISBN 9789251336090

FISHERIES AND AQUACULTURE

Global trends in status and management of assessed stocks: achieving sustainable fisheries through effective management

FAO fisheries and aquaculture technical papers

Global trends in status and management of assessed stocks

Achieving sustainable fisheries through effective management

This report summarizes data on marine fish and invertebrate populations gathered through formal stock assessments and suggests devoting more resources to assess stocks in data-limited and capacity-poor regions, such as South Asia, to improve global marine conservation.

152 pages | 176 x 250 mm | ISBN 9789251335413

Transición hacia un enfoque ecosistémico de la pesca

Lecciones aprendidas de pesquerías de América del Sur

FAO documento técnico de pesca y acuicultura

Transición hacia un enfoque ecosistémico de la pesca

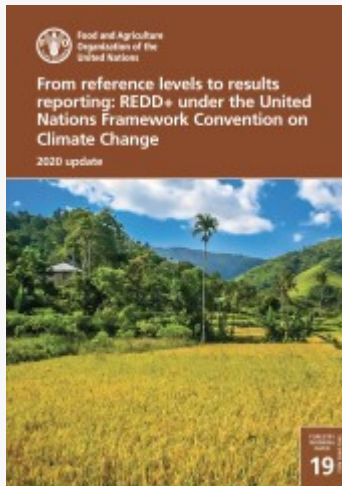

Lecciones aprendidas de pesquerías de América del Sur

Through a comparative analysis of seven South American fisheries that adopted principles of the Ecosystem Approach to Fisheries, this study identifies conditions conducive to successful fishery management, including well-defined fishing limits, adequate legal frameworks and cohesive fishing communities.

Forestry working papers

From reference levels to results reporting: REDD+ under the United Nations Framework Convention on Climate Change

2020 update

Reducing Emissions from Deforestation and Degradation Plus is a crucial mechanism to mitigate climate change. This report showcases its recent developments, indicating that countries increasingly report forest reference (emission) levels, which improves the data accuracy on global deforestation and forest degradation trends.

78 pages | 176 x 250 mm | ISBN 9789251335109
